

## FINANCIAL AND COMMERCIAL.

TUESDAY, April 29—6 P.M.

The following is a comparative statement of the exports, exclusive of specie, from the port of New York to foreign ports, for the week ending April 28 and since January 1:

	1860.	1861.	1862.
For the week....	\$156,699	2,326,384	1,410,191
Previously reported.	26,120,537	40,309,747	39,193,460

Since January 1... \$27,686,627 42,326,031 40,606,626

The exports for the year to date show a falling off of nearly two millions, as compared with last year, but a large increase on average years. If the crop prospects in Europe continue as poor as they are at present there will be a very active breadstuffs movement all summer. Our own crop prospects in the West are not as promising as they were last year, in consequence of the unusually heavy rains. Fortunately there is a large quantity of grain and flour still on hand in the West, and good prices will bring it forward rapidly.

There is nothing new to report of the money market. Money can be borrowed in any amounts at five per cent on good collateral. For certificates of indebtedness 98½ is bid. There is great complaint of the falling of paper at bank, and some banks are buying government stocks in order to make interest on their capital. The Sub-Treasurer received \$1,350,000 on deposit.

Foreign exchange is firm. Bankers sold this morning at 112½ a ½, and afterwards raised their rates to 112¾. Francs are quoted at 5.04½ a ½. Gold was firm this morning at 101½. In the afternoon it rose to 102, which was freely bid at the close.

The stock market has been firm and buoyant all day. At the opening there was an active demand for governments, which raised the coupon sixes up to 97½—an advance of 1¼ from yesterday's closing quotation. At this advance they were freely supplied by parties who had bought at lower rates, and a reaction of ¼ per cent took place. They closed, however, at an advance of 1½ for the coupons and 1½ for the registered over the last price of yesterday. Seven-thirties were likewise one per cent higher, and the fives of 182½, 2 per cent. State bonds sympathized with governments; Indiana fives rose ½, Tennessee ½, Virginia ½, and Missouri ½. The entire speculative list advanced to-day, the most buoyant descriptions being Pacific Mail, which rose 1½, Toledo, which rose ½, and Rock Island, which rose 1½. The short interest in Toledo was to be large, and must be proving expensive. The parties who were so severe upon the directors for dividing three per cent when they had earned six, and who were so uneasy about the maturing of the company's bonds next year, would probably have saved money if they had let Toledo alone. The advance of the day in New York Central was ½, in Erie ½, in Erie preferred ½, in Hudson ½, in Reading ½, in Michigan Central ½, in Panama ½, in Illinois Central ½, and in Galena ½. At the close the market was very firm. There were rumors that offers to negotiate had been made by the rebels, but they were not credited. The success of the New Orleans expedition was, however, regarded as another indication of the speedy termination of the war by the suppression of the rebellion. The following were the last quotations—United States 6's, registered, 181, 97½ a ½ do.; do., coupon, 180, 97½ a ½ do.; do., 182, 98½ a ½; Indiana 5's, 182, 97½ a ½ do.; do., 182, 98½ a ½; Indiana 5's, 182, 97½ a ½ do.; do., 182, 98½ a ½; Virginia 6's, 56 a 58; North Carolina 6's, 65 a 67; Missouri 6's, 80½ a ½; Pacific Mail, 109½ a 110; New York Central, 84½ a ½; Erie, 37 a 38; do., preferred, 62 a ½; Hudson River, 35½ a 36; Harvard, 12½ a ½; do., preferred, 30½ a 31½; Reading, 44½ a ½; Michigan Central, 55 a ½; Michigan Southern and Northern Indiana, 22½ a ½ do., guaranteed, 49½ a ½; Panama, 124½ a 125; Illinois Central, 60½ a ½; Galena and Chicago, 67½ a ½; Cleveland and Toledo, 43½ a ½; Chicago and Rock Island, 55½ a ½; Chicago, Burlington and Quincy, 62 a 64; Milwaukee, and Prairie du Chien, 28½ a ½; Cleveland, Columbus and Cincinnati, 112 a ½; New York Central 7½, 1876, 103 a 104; Erie third mortgage bonds, 95 a ½; Michigan Central 8's, first mortgage, 101½ a ½; Illinois Central bonds, 7½, 87 a 88; American gold, 102 a ½.

The business of the Sub-Treasury was as follows to-day—

Total receipts... \$2,632,026

For customs... 142,000

Payments... 2,683,522

Balance... 12,006,585

The exchanges at the Bank Clearing House this morning were \$18,463,362 55, and the balances \$1,216,970.

We understand that the whole of the certificates founded upon pledge of government securities, with which the bank exchanges were made previous to the present arrangement, have been redeemed and cancelled. The agreement under which those certificates were taken will expire by its own limitation on the 1st of May.

## STOCK EXCHANGE.

TUESDAY, April 29—6 P.M.

The following is a comparative statement of the exports, exclusive of specie, from the port of New York to foreign ports, for the week ending April 28 and since January 1:

1860. 1861. 1862.

For the week.... \$156,699 2,326,384 1,410,191

Previously reported. 26,120,537 40,309,747 39,193,460

Since January 1... \$27,686,627 42,326,031 40,606,626

The exports for the year to date show a falling off of nearly two millions, as compared with last year, but a large increase on average years. If the crop prospects in Europe continue as poor as they are at present there will be a very active breadstuffs movement all summer. Our own crop prospects in the West are not as promising as they were last year, in consequence of the unusually heavy rains.
